

INDIA

A map showing the southern tip of India and the island of Sri Lanka. The landmasses are colored olive green, and the surrounding water is blue. A small white circle on the Indian coast indicates the location of Katchatheevu Island. A blue triangular callout points from this circle to a larger, detailed view of the island. The detailed view shows Katchatheevu Island as a red landmass with a black dot marking the location of St. Anthony's Church. The island is surrounded by a white circular border.
